

SEPTEMBER is PEDIATRIC CANCER Month

Cindy Kaufman District 14K Pediatric Cancer Liaison

Did you know:

- Each year in the United States 15,780 children aged 0-19 are diagnosed with cancer.
- Approximately 1 in 285 children in the United States will be diagnosed with cancer before their 20th birthday
- Globally there are more than 300,000 children diagnosed with cancer each year.
- 20% of children with cancer in the United States will not survive it.
- Every 3 minutes a family hears the devastating words that their child has been diagnosed with cancer.

Statistics from the American Childhood Cancer Organization
